

I do not want LPFM in my area to replace KLOVE in my community. KLOVE provides Christian encouragement, prayer support, and the message of hope in Jesus Christ daily to me and my community on 91.3FM. My husband is currently in Iraq with the USAF and if it were not for the positive and encouraging message from KLOVE I would have lost my temper with my 15 month old on a stressful and difficult night. The local community would lose a resource of Christian music, concerts and events in this area as well as the positive impact of the message of Jesus Christ and hope for this crazy world. In a time of war and terrorism, we need a positive source from our radios. I don't have to worry about what my daughter will hear- no 7 second delay needed. KLOVE has helped many people turn their lives around: people on the verge of suicide, with drug and alcohol addictions-as witnessed by the testimonies of callers. The service KLOVE provides is in the public interest because it helps people and impacts families for the better. Thank you for preserving this vital resource for so many listeners. Susan Young
